

CE Certified Multiple Use Professional Medical Mask Industry

Size: L/XL

Antibacterial effectiveness 95.7%
Filtration effectiveness more than 98%
Made in EU – 100% Slovak product

Advantages of the mask:

1. TWO-WAY PROTECTION

– 3-layer filter with an outer and inner hydrophobic layer and filtration insert with a silver content, filters an inhaled air and protects the person, who wears the mask and unlike respirators, **it filters also an exhaled air and protects people in the surrounding**

2. REUSING

– after the all-day use only **replace the filter**

3. ECOLOGICALLY-FRIENDLY ELIMINATION OF USED FILTERS

4. ELIMINATION OF FOGGED GLASSES

5. UNLIMITED LIFETIME

Package content:

mask 1 pc, set of replaceable filters, rubber bands for tying-up of the mask

Three-layer filter

Outer hydrophobic layer
of a non-woven fabric
(It defends from penetration of droplets into the mask)

Middle filtration layer
with a silver content

Innner hydrophobic layer
of a non-woven fabric
(It defends from penetration of droplets from the mask)

Care and maintenance:

Before the first use, we advise you to disinfect the body of the mask with disinfectant.

CARE PROCEDURE AFTER THE MASK WAS USED:

1. Withdraw the used filter. 2. Disinfect the body of the mask with disinfectant. 3. Insert the new filter.

Patent protection PP50020-2020/PUV50032-2020. Design protection RCD 007802160-0001/0002. This product is a subject of the declaration of conformity with requirements of the Government Decree of the Slovak Republic No. 404/2007. All materials used in product are health friendly and clinically tested.

They are used in food and medicine industry.
